

# Where AI Meets EQ

## Leadership Programs for Early-Career Teams in an AI World

Equip your early-career team with the skills your *tech stack* can't deliver.

**AI without EQ is like asking a racecar driver to fly a plane... without flight school.**

Your early-career talent is smart, motivated, and built for speed. But leadership in today's world is different.

**It's more than tools. It's about trust, traction and thinking ahead.**

We teach the **communication, creative thinking** and **clarity** needed to lead and deliver results, in an AI-powered world.

Plus it's all in plain language with short, engaging hands-on sessions.

**Fast. Measurable. Cost-effective. Surprisingly fun.**

## Start with the E-Score™

- A **60-minute high energy Assessment & Discovery session** for your whole early-career team (up to 100 people)
- Each participant gets a **personalized E-Score™ report**: strengths, growth areas, and next steps
- Companies get **full team picture** and **aggregate data, ROI metrics and trends**
- Great as **Return-to-Office perk** to connect with other teams from across the company, and ready-to-send invites and session details provided for easy HR rollout
- Think of it as **leadership "flight check"**: a fun, honest look at where your team is today, and what's possible next
- We use these results to **recommend next steps**: workshops and programs to build the skills your team needs to thrive and lead in an AI-powered world

**FREE for qualifying MA companies**

Each participant gets a real-time personalized E-Score report and action steps. Companies get the full team picture, trends and insights for ROI.

The **E-Score™** measures across five key dimensions of leadership:

- Effective
- Empowered
- Engaged
- Entrepreneurial
- Empowered

**Ready to future-proof your team?**
